- Nebrija University
- Universitat Politècnica de Catalunya · BarcelonaTech

### SWEDEN
- Embassy of Sweden in Seoul

Please note that there are additional exhibitors present at the fair; however, their information is not included in this catalogue. For a comprehensive overview of all participating countries and institutions, please refer to the [Study in Europe Fairs visitor registration page](#).
Information about Erasmus+, Erasmus Mundus Joint Masters, and the Marie Skłodowska-Curie Actions (MSCA)

Erasmus+ is the European Union’s programme for international mobility and cooperation. It provides funding for scholarships that enable students and staff to come to Europe’s top higher education institutions. It also funds international Higher education cooperation projects.

Erasmus+ provides grants for short-term exchanges for students at Bachelor, Master and Doctoral level to study in one of 33 European Erasmus+ Programme Countries as part of their study programme through International Credit Mobility. Students at all study cycles can go on a physical mobility between 2 and 12 months (or between 5 and 30 days, if part of blended mobility). Erasmus+ also offers the opportunity to combine a period of study in a Programme country with a traineeship to gain work experience.

Erasmus Mundus Joint Masters are another opportunity for non-European students. These are full degree programmes at Master level jointly delivered by an international consortium of higher education institutions. They award full-study scholarships for students from all over the world. Study must take place in at least two of the European Countries.

Find out more about these opportunities [here](#).

The Marie Skłodowska-Curie Actions (MSCA) provide grants for all stages of researchers’ careers - be they doctoral candidates or highly experienced researchers - and encourage transnational, intersectoral and interdisciplinary mobility.

The MSCA enable research-focused organisations (universities, research centres, and companies) to host talented foreign researchers and to create strategic partnerships with leading institutions worldwide.

Learn more about these opportunities [here](#).
BELGIUM

National Promotion Agency

Study in Flanders and Brussels

www.studyinflanders.be | info@studyinflanders.be

Study in Flanders represents the 18 Flemish higher education institutions that are located in Flanders and Brussels. Flanders, the Dutch speaking part of Belgium, is a great place to choose as your study destination. Why studying at one of the Flemish higher education institutions in Flanders or Brussels would be a smart choice: you will find excellent higher education with an excellent price/quality ratio in an open and multilingual society and an economically strong region, at the heart of Europe, boasting a high quality of life. Study in Flanders offers 1 scholarship, which is the Master Mind Scholarship, awarded to highly talented international students who want to study a master’s programme at a Flemish university, a school of arts or the Antwerp Maritime Academy. Next to that, Flemish higher education institutions also offer specific funding opportunities.

Wallonia-Brussels Campus

www.studyinbelgium.be | wbcampus@wbi.be

Wallonie-Bruxelles Campus is the agency promoting French-speaking Belgian higher education on the international scene. It represents 6 universities, 19 university colleges and 16 schools of arts which offer high quality programmes at bachelors, masters and doctoral level. The agency supports foreign students in making their study plans a reality and raises the international profile and appeal of higher education in Wallonia and Brussels.

CZECH REPUBLIC

National Promotion Agency

Study in Prague

www.studyinprague.cz | info@studyinprague.cz

Consortium of 7 prestigious universities from Prague, Czech Republic. We offer you a unique opportunity to pursue your university studies at one of the top 7 universities in Prague. Many study programmes are offered in English: languages, teacher education, social sciences, natural sciences, human medicine, architecture, economics, business, management, informatics and computer science, chemistry, biotechnology, mathematics, nuclear physics, engineering and technologies, food, agriculture and forestry sciences as well as art design, music, dance, film and audiovision. You can study your favourite programme in English at Bachelor, Master and PhD level at.

ESTONIA

National Promotion Agency

Study in Estonia

www.studyinestonia.ee | info@studyinestonia.ee

Each year, Estonian universities welcome more and more international students from all over the world. With long academic traditions and world-renowned higher education institutions, Estonia has become an attractive study destination for students abroad. More than 150 degree programmes offered by our partner universities are fully taught in English. Estonia hosts almost 5000 international degree students, more than 1500 exchange students and ca 400 participants of summer or winter schools. Estonian government and universities have initiated various scholarship schemes in order to support international students who are interested in studying in Estonia. We hope that all of you who have made the decision to come to study in Estonia will experience something new and gain valuable experience for the rest of your life!

The Spanish Service for the Internationalization of Education (SEPIE) is an Autonomous Institution depending on the Ministry of Universities, which acts as the National Agency responsible for developing and implementing the Erasmus+ programme in Spain. In addition, SEPIE is the sole and centralised interlocutor between the 91 universities that make up the Spanish University System as a whole and foreign governments or institutions - both public and private - and its functions include contributing to the international promotion of Spanish higher education worldwide.

To this end, the SEPIE:
- contributes to disseminating and promoting the educational and research offer of Spanish universities and research centres abroad;
- offers information and advice to foreign students, professors and researchers in Spain and Spaniards abroad;
- establishes collaboration agreements with foreign governments and institutions, developing, in coordination with all partners, international mobility programmes and managing their academic, administrative, legal and financial needs.
